

Please do not change the NJ 'Do Not Call' regulations. I am a disabled (medical) person who is also a military Mom of a son and daughter-in-law currently serving our country in Iraq. My phone is precious to me to await calls from my family overseas. It is also a tremendous burden to a medically disabled person to get up and down and be bothered by frequent nonpersonal phone calls of a soliciting nature. Please consider this in your hearings on this agenda.

Sincerely,  
Deborah M. Gifford
